

Profile of Unlock Sheffield worker, Steve Millwood.

I was born in Darnall in Sheffield and lived there, and in Attercliffe and Handsworth. I started work as a Steelworks Chemist at one of the local steelworks in Attercliffe and eventually moved up to become a Shift Manager in one of the Electric Melting Shops.

I began going to a Sunday Night youth club at Christ Church Attercliffe, was challenged by a number of things, including a week in Iona and their emphasis on peace and justice. I responded to Jesus's call to follow Him, was confirmed in Attercliffe in 1966 and have continued to follow Him to some amazing places.

I moved from Steelmaking to teaching in the mid-seventies and then went to Brazil in 1979 and on to Paraguay in 1981, where we spent more than ten years, an experience we wouldn't have missed.

I'm married to Janet and we have a grown up daughter Rebecca, who still lives with us. We have lived in Kimberworth Park, in Rotherham, for the last 10 years, where I am the Vicar, now approaching retirement. I have a wide range of interests, including real ale and red wine (not together), walking, reading, exploring the island of Madeira and watching Grand Designs (and dreaming).
